Timothée MEYER

5TH YEAR MECHANICAL ENGINEERING STUDENT – DESIGN AND PRODUCT ENGINEERING

timothee.meyer@utbm (+33) 7 69 88 68 99 LinkedIn

EXPERIENCE

September 2025 – February 2026 (6 months), Méru (FR)

R&D Intern, Design and Simulation, *FORVIA Interiors*
Development of a mathematical model for predicting pressure drop in specific air-vents in vehicles saving up to 6 months of development time, and of the design architecture of groundbreaking invisible air-vents: 3 patent applications filed.

March 2023 – March 2026 (1 weeklong annual event) Montbéliard (FR)

Project leader and collaborator *Crunch Time @ Enedis, Forvia, Bee Engineering, Time Prod*
Innovation projects with different companies on various subjects, such as mechanical design, process management and engineering related training programs.

July 2023 – August 2023 (1 month), Grosbliederstroff (FR)

Production line operator, *Fonderie Lorraine (VOIT & ZF)*
Machining and quality control of electric motor housing.

EDUCATION

September 2026 – February 2027 (6 months), Shanghai (CN)

Innovation and Entrepreneurship in International Environments, UTSEUS/SHU

September 2024 – July 2027 (3 years), Montbéliard (FR)

Mechanical Engineering – Design and Product Engineering, UTBM, Bachelor and Master's, GPA: 78

September 2022 – July 2024 (2 years), Belfort (FR)

General Engineering Preparatory Cycle, UTBM, DEUTEC Diploma

September 2021 – July 2022 (1 year), Saint-Quentin en Yvelines (FR)

French Baccalaureate: Mathematics and Physics/Chemistry, Lycée Saint François d'Assise, Highest Honors

SOFTWARE & PROGRAMMING LANGUAGES

Catia V5	Abaqus CAE, Tosca, Comsol	Mayka
Python	VBA/ Catia EKL	C

LANGUAGES

French (Native)	English (Cambridge C2 2021)	Spanish (DELE C1 2023)
Mandarin (HSK 2-3)	Italian (Beginner)	

SKILLS

Physical Realistic Modeling	Composite Materials & Machining	Mechanical Engineering	International Operations
Research and Innovation	Product Drawing and Sketching	Team Management	

PROJECTS WORKED ON

Weber Party Cooler Fridge Design	Mecalac Construction Site Heater Design	SUV E-Bike Frame Design
1:9 Mirage 2000-D study model	Lagrange Waffle Maker Ergonomic Redesign	Figu Chair Design
